# Through Vegetal Being: Two Philosophical Perspectives (Critical Life Studies)

## Synopsis

Blossoming from a correspondence between Luce Irigaray and Michael Marder, *Through Vegetal Being* is an intense personal, philosophical, and political meditation on the significance of the vegetal for our lives, our ways of thinking, and our relations with human and nonhuman beings. The vegetal world has the potential to rescue our planet and our species and offers us a way to abandon past metaphysics without falling into nihilism. Luce Irigaray has argued in her philosophical work that living and coexisting are deficient unless we recognize sexual difference as a crucial dimension of our existence. Michael Marder believes the same is true for vegetal difference. Irigaray and Marder consider how plants contribute to human development by sustaining our breathing, nourishing our senses, and keeping our bodies and minds alive. They note the importance of returning to ancient Greek tradition and engaging with Eastern teachings to revive a culture closer to nature. As a result, we can reestablish roots when we are displaced and recover the vital energy we need to improve our sensibility and relation to others. This generative discussion points toward a more universal way of becoming human that is embedded in the vegetal world.
