Customer Reviews

My teacher ask me to buy this. Has good material to learn about the structure of a essay. I bought this used and was as expected and as described conditions. I would recommend to try buy used because you will save a lot of money.

I rating 3 starts because even the book it's good , hasn't the number code if you need to work with "My laboratory writing" you need to buy the access code online, so it's more expensive, but if you don't need to work online just with the book that is really good book.

I'm so happy to have a great price of this book. The quality is very good. The book looks new

Got this book for my 15 year old and he loves it. Actually, it's also helped me as well.

It is exactly what I need and for cheap. I think I will use again. The best part is that I can return the book with no problem.

Book was received as indicated. Did not have any issues with order, it was received as the order stated. Would order again.

LIKE AND RECOMMEND 100% BELIEVE THAT WAS A GOOD BUSINESS

Great resource to help develop and fine tune writing style. I purchased this book about a year ago and I have referenced it periodically.
