Cross-Cultural Explorations: Activities In Culture And Psychology

Synopsis

This activities workbook is designed to facilitate students' understanding and application of major concepts and principles in the study of culture and psychology. The 90 activities in this workbook feature a wide range of engaging case studies, self-administered scales, mini-experiments, and library research projects, addressing topics such as culture, race/ethnicity, gender, age, sexual orientation, disability, and social class. Background material is included for any concepts not commonly addressed in introductory texts. In addition, the workbook is supported by a substantial Instructor's Manual that includes discussion questions, video recommendations, variations by course level, and suggestions for expanded writing assignments.

Customer Reviews

The book has a lot of interesting exercises though there are grammatical errors in the book. The writing style can sometimes therefore be a little confusing.

I bought this used and everything I needs for my class was intact. All of the activities in this book are really interesting.

Book arrived in great condition.
