Customer Reviews

I was pleasantly surprised by this book. The layout is engaging for the child, and achieves repetition, without being overtly repetitive and boring... which is no small feat, considering the entire book is comprised of 20 words! We will definitely be using more of the books in this sight word series! A definite recommended!

My 5 yr old son loved it. We ordered the next lesson. Can't wait until we go over the new lesson.

Waste of money. There are much better books. My kids really loved the early readers by Katie Jordyn. Those books taught a whole lot more words and my kids really enjoyed the reading games/activities.

I am checking out easy ways to help my autistic son and rote rehearsal with phonics is key! Try this it will help your little one.
