## Synopsis

What do you know about Ukraine? The sad reason - Russian aggression - forced the world to talk about this great Eastern European country, its history over the past several centuries was undeservedly in the shadow of the neighbor-invader. But do you know at least something about Ukrainian literature? We offer to get acquaintance with it not from the very beginning, but from the Renaissance. The reason for that is very simple - a significant part of the authors from Ukraine of that time used Latin to express their thoughts and feelings as well as the rest of Europe. This tradition has not completely collapsed even today, to prove that: if you conscientiously have studied and still remember this classic language, you can enjoy the quotes in the original. At the Renaissance era the intellectuals have considered themselves as a separate community, higher than political boundaries. So, the literature they have created is a common heritage. So, here in front of you - still unknown page of European literature, written in Ukraine. Meet it, taste it, share it!
