Angry White Men: American Masculinity At The End Of An Era
“[W]e can’t come off as a bunch of angry white men.” Robert Bennett, chairman of the Ohio Republican Party

One of the enduring legacies of the 2012 Presidential campaign was the demise of the white American male voter as a dominant force in the political landscape. On election night, after Obama was announced the winner, a distressed Bill O’Reilly lamented that he didn’t live in a traditional America anymore. He was joined by others who bellowed their grief on the talk radio airwaves, the traditional redoubt of angry white men. Why were they so angry? Sociologist Michael Kimmel, one of the leading writers on men and masculinity in the world today, has spent hundreds of hours in the company of America’s angry white men; from white supremacists to men’s rights activists to young students; in pursuit of an answer. Angry White Men presents a comprehensive diagnosis of their fears, anxieties, and rage. Kimmel locates this increase in anger in the seismic economic, social and political shifts that have so transformed the American landscape. Downward mobility, increased racial and gender equality, and a tenacious clinging to an anachronistic ideology of masculinity has left many men feeling betrayed and bewildered. Raised to expect unparalleled social and economic privilege, white men are suffering today from what Kimmel calls "aggrieved entitlement": a sense that those benefits that white men believed were their due have been snatched away from them. Angry White Men discusses, among others, the sons of small town America, scarred by underemployment and wage stagnation. When America’s white men feel they’ve lived their lives the right way; worked hard and stayed out of trouble; and still do not get economic rewards, then they have to blame somebody else. Even more terrifying is the phenomenon of angry young boys. School shootings in the United States are not just the work of misguided youth; or troubled teens; they’re all committed by boys. These alienated young men are transformed into mass murderers by a sense that using violence against others is their right. The future of America is more inclusive and diverse. The choice for angry white men is not whether or not they can stem the tide of history: they cannot. Their choice is whether or not they will be dragged kicking and screaming into that inevitable future, or whether they will walk openly and honorably; far happier and healthier incidentally; alongside those they’ve spent so long trying to exclude.

"Defensiveness of the white male is so narcissistic that any criticism of masculinity and male entitlement is seen as attacking and destroying an entire biological sex". This is a quote from Michael Kimmels book, and I think it resonates a lot with many of the 1 star reviews of his book. Angry white men that read this book, feel like "masculinity" is being attacked, and so they say things like "the pussification of America!!" and leave a poorly written 1 star critique. It's a great book. It is well written, thoroughly researched, incredibly informative, and I came across it just in the nick of time. I was getting frustrated with the countless droves of men that seem to have made it their mission in life to spend their days on the internet, typing furiously at their keyboards about the "evils of feminism" and about how "oppressed" the male sex is now "because of the feminists!". Men going to forums and spreading their misogyny around, swapping false and misinterpreted statistics, trying to make claims about how women are "the primary perpetrators of domestic violence!" and that "40% of all cases of rape reported by females are lies!" and that "women rape men the same amount, if not more than men rape women!". It seems like any time I enter a space on the internet where a female centered discussion is occurring, either about rape, domestic abuse, sexual harassment etc....there are men that immediately show up, and they try try to tell me about this apparent "epidemic" of female rapists and women that mercilessly beat their husbands.
