I just finished reading Coma Girl 2 and I'm dying to read the next month. When a series is this compelling impatient readers like myself are going to have an agonizingly difficult time waiting for
the next part/month! LOL And the jaw dropping cliffhanger on which August ended on intensifies my eagerness for the next part. Initially, when I considering whether to read the serial I had my doubts about whether I’d like a serial in which the main character was in a coma. I thought that it would be too depressing. Moreover, generally I dislike the usual price gauging technique that usually accompanies a serialized format. In actuality, so far the series has taken me through a multiplicity of emotions. I’ve laughed, I’ve wept, and I’ve felt empathy, anger, outrage, comfort, sympathy, anxiety, delight, enlightenment. It’s like an indepth study of human beings when they are unaware that anyone is watching or listening. Marigold’s mom, dad and sister are despicable in many ways and yet sadly they are all too familiar. Coma Girl is a compelling read with an ingenious plot, good writing, real characters and an emotionally jarring storyline. Nevertheless, I am glad that it is only a 6 part monthly series because otherwise given my disposition I know that I would soon tire of the format and stop reading it no matter how interesting the storyline. I look forward to discovering Marigold’s ultimate Fate December 1, 2015. I pre-order each part.

I have to wait another MONTH for the next part? OH NO! I thoroughly enjoyed both Part 1 and 2 of this series and I have never liked a series before. Stephanie Bond has written this series so well. I really like Marigold and the machinations around her situation are riveting! The sister’s exploitation, the parents haggling, the friend’s drama, the miracle around one of Marigold’s room-mates - it’s all there. I like the detective best and feel he is trustworthy but the cliffhanger ending came - as Americans say - right out of left field! The character of Marigold is so likeable. The days when she is hearing the worst from her family and friends, she treats the secrets she hears with a dry humour which is very engaging. I am desperate for Part 3! The problem is that for me - and probably everyone else who is enjoying this series - we bolted through the first and second parts in an hour or so and now we have to cool our heels and wait for the next installment. :(

I am really enjoying this story. Marigold is getting more and more interesting and I find myself trying to solve her case and getting frustrated right along with her. Also, I am not a fan of her parents and as of right now the only one I seem to trust is the detective. And just when I thought her situation was getting better Stephanie hit me with an ending I never saw coming! I read this in one sitting and now I wait for part three which fortunately is only a month away but it will feel like forever. Thanks Stephanie for a great book! I look forward to the next and highly recommend Part 1 and 2!

I am a fan of the Body Movers series. And when it comes to Carlotta, I am team Jack. So I’m glad
he is a character in this book. I am not a fan of serials. I hate waiting for the next installment, but at this point since I am invested in Coma Girl, what choice do I have? I enjoy Stephanie’s books, so the end of the month can’t come soon enough for me.

I am enjoying this story so much that when the current episode ends I am surprised and disappointed. Gone too soon, and then I have to wait for the next one. Well, so far it has been worth the wait! Will be glad when the next episode comes out. Hurry....Hurry....!

I like the story ok, but I’m getting tired of it beingDrrrrraaaagged out so long. I like to have a book and read it then get another. Having to read a chapter one month then wait another month before getting another chapter is a pain. Just sell us the book.

This series is absolutely amazing! I have been following this series on Facebook daily. But a daily dose of this series was not enough for me. I had to buy the series so I could find out what happened! This is a story about a woman, Marigold, who ends up in a coma after an accident. She gains notoriety and becomes known as Coma Girl. Prior to being Coma Girl, she felt like she was simply a nobody. When in fact, she really is a somebody. Marigold is able to understand everyone around her but it is unknown whether or not she will come out of her coma. There is a lot of humor in this book and the conversations Marigold can hear are very entertaining. And,..... wait for it..... wait for it..... Appearances by Detective Jack Terry occur in this book! I swoon each time he makes an entrance. He is very compassionate towards Marigold and even mentions Carlotta a time or two. And if you did not notice I am #teamjackterry all the way, lol.This story ends on a cliffhanger that I would have NEVER guessed. I am so excited for the next installment of this series to come out. Buy this book, you will love it!

It was interesting that the detective preferred a comatose patient more than an animated person. The excitement expressed by the removal of the nail polish was so true. As was the hearing and smelling.
