Noble Intentions (Jack Noble #4)
Synopsis

Jack Noble. Assassin for hire. Spy. Thief. He makes no mistakes. Passes no judgement. Feels no remorse. So why does he stop to help a lost child moments before he's supposed to complete a deal with one of the east coast's top crime bosses? A simple decision that places Jack in unfamiliar territory. He's become the hunted and finds himself in a race against time to save those closest to him.

Customer Reviews

This is the COMPLETE Season One Episodes or ALL 5 novellas of the Noble Intentions Series, So Far! I read them ALL as they were published, because I couldn't Wait until this edition that compiles them ALL together came out! If you haven't read ANY of the Jack Noble stories - You should buy this Book! The 5 stories are all a continuation from one to the other, so it should be like reading one continuous novel... L.T. Ryan is an excellent writer of fast-paced action stories laced with a touch of humor... I'm tempted to Buy this just so I'll have the stories ALL in one Volume! If you haven't read about Jack Noble and the other characters in this Excellent Series, You are in for a treat - a real Reading Pleasure! You get a huge story ALL in one Volume for a Great Price - Well Worth the money & time spent reading! Am really looking forward to Season Two, as I'm reading Noble Beginnings - The Novel...

Season one of NOBLE INTENTIONS is a compilation of the first five episodes in this series. Each one is a perfect standalone story, but all are connected and help weave a tale of Jack’s life, or at least this small snippet of it. You can't help but love Jack. Sure, he kills for a living, but he’s good at it. And he knows when to draw the line. It's his weaknesses that makes him so relateable, and one of those weaknesses is the group of close friends he keeps around him. Each of the secondary characters in this book with grab at your heart and never get it back. This series is full of humor, action, suspense, emotion, and lots of surprises. There's really nothing in here not to like, and so it comes with the highest recommendation I can possibly give it. You'll fly through the first season and start begging for the second. And if season one is any indication, it'll be worth every agonizing second to wait for season two!

I found this series fully enjoyable. What's not to love? Jack is a complex guy with almost superhuman fighting skills who is compassionate, lovable, sexy and admirable even though he kills for a living! His longtime friend and associate "Bear" is on the scene when needed and is a remarkable and exciting guy. The girls in Jack’s life make him human and show that he is capable of love. There is even a sweet little girl involved through no fault of her own that has captured everybody’s love. I look forward to reading the next part of Jack’s story and hope we don't have to wait too long to buy it. This book is a lot of enjoyment for the money! Ryan, a new author, has the talent to captivate a reader, keeping one turning the pages (so to speak) to see what happens next.
I realize the author has numerous books, so is already "successful". I, personally, won't be reading any more of the author's books, though. I love the premise, I love the characters, I love the writing style. I even loved the overall plots. Basically, there was only one thing I didn't like, but it pervaded the entire series and ruined it. These criminal/political masters and overlords are, apparently, gods. They know everything, instantly, often with no explanation at all. A character drives across half the country (drives, no plane tickets, fake name [assuming the character was dumb enough to not pay with cash when gassing up, which I doubt]) to a farm in the middle of nowhere that NOBODY knows he's connected to, and the bad guys know? Almost instantly? Sure, it's POSSIBLE, but that is EVERY situation. Every. Single. Time. Which no explanation of HOW (the GPS thing was finally a good start, although the bad guys just calling the company itself, giving them a unit number, and the company just gives these strangers a location? I don't think so), the bad guys know and also, magically, have somebody there. And it appears that EVERY organization is this all powerful, all knowing, magical, thaumaturgical entity. The author writes very engagingly, and has created some really fun, really cool characters. Unfortunately, the "deus ex machina" plot devices made me feel like I was reading a children's book, at times, some tweener's book that doesn't make sense in any way, but is still entertaining.

I started out liking the series, but the further I read, the more nonsensical the situations became--no matter where the characters find themselves, there is someone they have to beat up and/or kill...even people not involved in the overall story line. It reaches such a point of unbelievability that it just becomes gratuitous and empty.

I read 50% of this book then had to put it down to contain my frustration. 1 guy killing so many people, even those who had little relevance to the plot. Then his gal just out of surgery has the strength to take out one of the bad guys. Bad plot all around, shallow characters... it was like he wrote the book using Wikipedia for character development. I'm sorry I wasted my time on this one!

So many books, so little time. It would be a shame to waste any of that time on this. Reads like a poorly crafted TV Pilot. A lot of disjointed action, pointless killing and shallow character development.

I love to be entertained. And L.T. Ryan kept me riveted for a week now. Non stop action from start
to finish. Jack, Bear, and Clarissa make a great team of protagonists. I have read two of the Jack Noble books so far this week. And not once did I want to set it aside. But alas my wife did insist that I put it down while we ate. Started Season 2 this afternoon. Should be done before the weekend comes to a close. I sure do miss my youth when I read slowly, and a book could I last me at least a week. Here’s to L. T. Ryan, Entertainer Extraordinaire.
