Customer Reviews

This book looks good at first glance, but Knight's words soon start to seem disturbingly familiar.

Examples: Knight Thurisaz is either active energy directed outward or passive Thurisaz energy contained and directed inward. It acts mostly as a carrier, and combines well with various other runes to ensure success when you're doing works of magic. Aswynn Thurisaz is either active energy directed outwards or, or passive Thurisaz energy contained or directed inwards. Primarily, this rune

is a carrier and can be combined with various other runes to ensure effectiveness in a working.

Knight **Thurisaz** is a power of defense and destruction.

Thorsson **Thurisaz** is the directed cosmic force of destruction and defense.

Knight **Wunjo** is the mid-point between opposites, where alienation and anxiety disappear. It is the rune of fellowship, comradery (sic), shared aims and general well-being.

Pennick **Wyn** is the mid-point between opposites. It removes alienation and anxiety. It is a rune of fellowship, shared aims, and general well-being.

And so it goes for most of the book. Copy, paste, and change a couple of words to avoid copyright.

Nowhere in the book are these copied authors acknowledged or even mentioned. There is not even a bibliography. The paragraphs are just taken out of context, and jumbled together. As these source authors are quite speculative, the interpretations are very dependent on their perspectives and "systems". Out of context, the paragraphs lose any value as information about runes.

The few parts that are relatively original amount to trivial information on Wiccan customs, with little relevance to runes.
