This map is ok if you need the lamination; however, it doesn't have as much detail as a regular Rand McNally map, so be forewarned. It's alright if you're not going anywhere tricky or improvising a lot on the fly.

We used this map during our San Fran/San Jose/Santa Cruz/Capitola trip. Nice size, easy to fold, well laminated. It has a large map on one side, including the Oregon border, Nevada (Reno) border, down past Cambria on the coast and Fresno. The other side has close ups of: Yosemite Natl Park, Kings Canyon & Sequoia Natl Park, Santa Rosa, Modesto, San Francisco/Oakland Bay Area, Downtown San Francisco (very hard to read street names), Sacramento, Monterey/Carmel, and Lake Tahoe Region. I used it a few times to point distances and locations out to kids, but really

ended up using our Google maps app on our phone for planning out driving directions. It was useful for getting the big picture.

These are great maps in the respect that you cannot tear them and you can fold as needed without destroying the map. Bad in that it is a condensed map and not a full map. Not all roads are shown or labeled. Good for quick reference for main roads.

Great map series. I highly recommend any state map of this type! For one that uses good old fashion paper maps, this product is for you. I also use these to confirm what my GPS says! Nothing like redundancy!! I have used the free state maps you get from welcome centers or other venues when travelling & had problems with them tearing along the folds or simply wearing out. This eliminates this problem. These maps should last indefinitely & with the economy tanking, I don't expect any radical changes or many new hwy's to be built in the near future. However should there be new highways, these maps could easily be drawn on with any marker to modify the map. Great product & well worth the \$\$!! Additionally, I am a motorcyclist that does 1-3 long distance trips a year & usually solo. I have about 20+ various states worth of these maps because they are really durable, waterproof (a must on a motorcycle!) & you can fold them up repeatedly to the specific section you are interested in. Space is a premium on any bike but I make room for these maps in my grip. Even if you aren't a motorcyclist, these maps are great cause they won't rip! Buy em!

These are awesome maps. They are very nice and fold up nice. I love it that you can draw on them to show your route. Got them for my husband for trips on the Harley. Very, very cool. they are very compact and just right for Motorcycles.

I'm one of those people who likes to be prepared. I drive a lot as it's part of my job and I go everywhere. There's always the possibility that my phone dies, backup batteries don't work and the cigarette lighter fails. It's good to have these just in case. What's great about this map is that it's laminated so you don't have to worry about your map tearing itself apart. I recommend it!

My favorite map - when the GPS goes down, this map is invaluable - nice quality, tear and water-proof, and you can write on it with a grease pencil or wipe-board marker and then restore to normal with a simple wipe. Easy to fold, always goes back to original easily. Highly recommend this map series.

A very detailed, inclusive map. The scale is a little small, would have paid extra for a bigger scale. Will suit our travel needs (with glasses).
