NCLEX® Review 4000: Study Software For NCLEX-RN® (Individual Version) (NCLEX 4000)

Synopsis

This comprehensive NCLEX® review program is designed for individual student NCLEX® review. The popular NCLEX® 4000 study software provides more than 4,000 NCLEX®-quality review questions covering all 29 topics in five major content areas, including fundamentals, pediatrics, psychiatric-mental health, maternal-neonatal, and medical-surgical nursing. The software delivers NCLEX®-style multiple-choice questions and alternate-format questions. Three study modes-pretest, review, and test-give correct and incorrect answers with rationales and new supporting references. NCLEX® 4000 includes important new questions on prioritizing and delegation, a key topic on the NCLEX® exam. Updated to reflect the National Council of State Boards of Nursing's latest test plan, including all forms of alternate-format questions.

Book Information

Customer Reviews

Pros:Lots of practice questions with rationales.Computerized test, similar to the NCLEX.Runs fine on Windows XP Pro.Cons:You cannot stop your test, bookmark your place, and resume at a later time.One reviewer complained of the software asking the same questions over. To prevent this from happening you just have to decide which of the thirty seven sections of the test you want to work on and complete that test section from start from finish. However, some of the sections are very long and others are very short. It took me almost a day just to do the 630 question pharmacology section and read through the rationales of the ones I missed. In order to save my place I had to leave my

computer on with the software open. Once you close the program you have to start all over again. The rationales are helpful. I learn more out of reading them than I do taking the test. Any extra practice is helpful. Personally I'm reading the Saunders NCLEX Review book, doing this NCLEX 4000, and also doing the ATI NCLEX VATI. Below I've included the different sections found on the NCLEX 4000 and how many practice questions each have. NCLEX 4000 Nursing Topics: Fundamentals of Nursing (653 questions total) Basic Physical Care (230 questions) Basic Psychosocial Needs (60 questions) Medication and IV Admin.
