Sabel Security Series: Books 1-3 (Sabel Security Thrillers Boxset)

Synopsis

Unhinged veteran Jacob Stearne and retired athlete Pia Sabel are all that stands between right and a world full of deadly wrongs. The pair takes on corrupt politicians, rogue corporations, financiers and bankers in three novels ripped from tomorrow's headlines. Join over 100,000 readers riveted by nearly 1,000 pages of murder, betrayal, rogues, and traitors. From the origin story of *THE GENEVA DECISION*, the horrors of corrupt politicians in *BRING IT*, to the madness unveiled in *ELEMENT 42*, you'll love the irresistible characters, the chilling evil masterminds, and gripping situations. As one VineVoice reviewer said, "I could not put this book down." • Jacob Stearne was a killing machine for the Army until he started listening to Mercury, winged messenger of the Roman gods. Now he works for Sabel Security. This irresistible hero is definitely lethal—but is he divinely guided, completely insane, or the next rampage killer? Ever since Pia Sabel witnessed her parents' murders, she's been looking for ways to eliminate the corrupt and murderous. When her adopted father hands her the keys to a security company staffed with battle-scarred veterans, she discovers her calling as a chilling avenging angel.

Book #1 - THE GENEVA DECISION: When criminals assassinate her first customer, retired soccer star and new CEO Pia Sabel must turn around her sinking security firm and hunt down oil pirates. Chapter 5: She plunged into shocking cold water. Something tugged at her torso, pulling her down. The current of the Rhone flowed out of Lake L man and into a narrow penstock, or inlet tube, that once fed the power plant's turbines. She was in that current, slipping into that penstock. She had to swim out immediately or get sucked into a kilometer-long tube. Clawing at the water, she struggled upward, sinking as much as she rose.

Book #2 - BRING IT: When Pia Sabel is abducted after trying to bust a ring of deviant criminals, it's up to veteran agent Jacob Stearne to navigate the dark web of deceit and lies to save her from her torturous captors. Chapter 3: She kicked hard and fast. Her foot moved between his knees so quickly he had no time for defense. The sole of her running shoe connected with the leg of his chair. The chair skittered backward until one of the legs found a crack in the sidewalk, caught it, and flipped end over end with a series of loud clanks. In the same instant, she grabbed his tie. His butt was behind him, halfway to the now-missing chair. His backbone was forty-five degrees from standing.

Book #3 - ELEMENT 42: When a drug company tests a deadly disease only their patented drug can cure, overconfident heiress Pia Sabel and unstable veteran Jacob Stearne are all that stands between right and deadly wrong. Chapter 1: The voice in my head returned when I stopped taking my meds. My caseworker said the voice was part of my condition—"PTSD-induced schizophrenia"—but I call him Mercury, the winged messenger of the gods, and a damn good friend.

Customer Reviews

Love, love this series. Got the three books a couple of days ago and sat right down with the first.
Inhaled it. Fast, smart, great settings, Love Pia (who wouldn't?) and her crew. I had intended to read
just the first and save the other two for rewards when I got some work of my own done. Right. I'm
half-way through the second. I'm not an easy-to-win reader. I read a lot of books and only bother to

review 1 in 30 or so. That should tell you what I think of these. Recommended.

Not bad but not great. I read all 3 books and noticed the characters developed a bit over book 1. Since this is fiction it's ok with me if the main characters are "bad" and don't miss the other guys as frequently as in this series. Since book 2 and 3 showed improvement I would like to think that subsequent books will improve more? As I mentionednot bad writing at all. I just like my heroes to be just that in this fictional world.

These three books are a must read.. Seely James has created the female version of Jack Reacher.. This new series is a thrill ride you don't want to miss.. Action packed rollercoaster rides in all three books.. Can't wait for the future installments..

When I read the blurb on about a series with a "Unhinged veteran Jacob Stearne and retired athlete Pia Sabel", I thought to myself, this might be quite the fun read. I was right and I was wrong. I thought it would be a light-hearted rom-com-y type of read. What I realized only a couple of pages in was the tone and atmosphere of the story was more in line with a Baldacci feel " a partner/team approach with lots of action. I love it. I read all three novels right in a row. Each success exhilarating; each fail was heartbreaking. Don't get too attached " anyone is fair game! I was picturing the action in my head like a movie " the details were that spot on. Death and Dark Money is next on my Kindle. My free time is scheduled for the next few days.

What an amazing series. The people are so real especially Jacob with his lapses of concentration at inopportune moments! The excitement in every page just got more. I so recommend this series to everyone who is an adrenaline junkie!

A marathon of adventure with the boxed set. Pia Sabel and company supply plenty of edge of the seat suspense, a splash of well timed humor, and adventures that leave you wanting more. Seeley James has created a refreshing cast of characters with this series.

For light entertainment, good adventure, these are fun books to read. Pretty much unbelievable in terms of what the human body can do and withstand, but hey, it's fiction. Put on your basic suspension of disbelief and go for it. I enjoyed these books even though I wanted to strangle Pia most of the time for being so thoughtless about the safety of her teammates...

Fun read. Quirky characters. People who enjoy action and twisted plots will enjoy Sabel and her crew of mismatched security team. However, after the first couple of stories, the villains all seem to be the same stereo type. Evil females, greedy warlords, ambitious politicians. The story improved for the 4th book in the series. That one holds a lot more promise.
